## EDUCATION

### Bachelor of Computer Science Sree Narayan Guru College

06/2021 - 06/2024

Coimbatore, Tamilnadu, India

#### Courses

- Computing Fundamentals and C Programming
- C++ Programming
- Java Programming
- Computer Networks
- Linux and Shell Programming
- Software Testing
- Visual Basic
- PYTHON Programming

## PERSONAL PROJECTS

### Web Vulnerability Scanner (02/2024 - 03/2024)

- - Developed a Python-based Web Vulnerability Scanner that automates the detection of common web vulnerabilities like SQL Injection and XSS.
- - The tool improved the efficiency of the security team by automating tasks that previously required over 20 hours per month.
- - Technologies used: Python, Flask, OWASP, HTML, CSS.

## WORK EXPERIENCE

### Cyber Security Internship RedTeam Hacker Academy

10/2023 - 10/2024

Thiruvananthapuram, Kerala, India

#### Achievements/Tasks

- Developed a solid understanding of fundamental cybersecurity concepts.
- actively engaged in training sessions, and contributed to various practical projects.

### Web Developer Internship NOYCE CYBER SOLUTION

05/2023 - 06/2023

Palakkad, Kerala, India

#### Achievements/Tasks

- Assisted in implementing security features for web applications and conducted security assessments.
- Collaborated with senior engineers to identify and mitigate vulnerabilities in a web-based auction platform.
- Gained experience in secure coding practices and vulnerability management.

## SKILLS

Vulnerability Assessment

Cryptography

Burp Suite

Kali Linux

Wireshark

Nmap

Metasploit

Python (Security Automation)

Shell Scripting

TCP/IP

Network Protocols

Linux

Cyber Security

## CERTIFICATES

### IBM Web Development Fundamentals (09/2023 - 10/2023)

(PLAN-8749C02A78EC)

### Server Training from Prompt Infotech (12/2021 - 12/2021)

Certificate No - #7489523979

Certified Ethical Hacker (CEH) | (In progress)

## LANGUAGES
